In the syllabus:

Poster Presentation
This semester, you will develop and give a poster presentation on a topic related to one that we have discussed and studied in class and that you have researched and written about in ENGL 1101. To prepare for the presentation, you will review and critique former students’ posters, and you will design and present a “practice” poster with your classmates. Your actual presentation will be given to your classmates, instructor, and guests from GSU and/or the community. At the completion of your presentation, you will complete a self-evaluation, and your classmates and instructor will provide oral and/or written feedback.
