

Natasha Walker  
Class Assignment: GSU 1010

During your community service program, you will be conducting field work as well. By asking the new American citizen questions about American identity, politics, and history, you will put together a presentation with another student analyzing the ideas people have about America and its people. Be sure to include what ideas you had about the individuals you were working with as well. Here are some example questions you may want to ask:

- What do people say about American tourists in your country? Have you seen this to be true?
- Do you want to vote? Is voting important to you? Should it be important to Americans?
- How is education in America different from that of your own country?
- Are romantic relationships different in America? Is this a good or bad thing?
- What do you think about religion? Are Americans more or less religious than other countries?
